

Hi Bonita,

The installation you did for us in Hout Bay some 6 months ago is working like a dream. Our units used per day have dropped from 34 per day to 25 per day. We switched our geyser on (the switch you provided us with) towards the end of May and off again the middle of September. A total of 4 months. During this period our units moved up to 27 per day. Our payback on the installation, assuming the Escom increase is similar to this year over the next two years is three years in total.

Many thanks
Butch Liebenberg
Hout Bay Rotary
